

Hydro is a Fortune 500 energy and aluminium supplier founded in 1905, with 36,000 employees in nearly 40 countries. We are a leading offshore producer of oil and gas, the world's third-largest integrated aluminium supplier and a pioneer in renewable energy and energy-efficient solutions. As we look forward to our next 100 years, we celebrate a century of creating value by strengthening the viability of the customers and communities we serve.

Norsk Hydro E&P Americas is part of Hydro's expanding international portfolio, and is responsible for Hydro's activities in the Gulf of Mexico. Hydro holds interests in 72 deepwater blocks, including two discoveries, and is the operator of 28 blocks.

Senior Explorationists

Norsk Hydro E&P Americas has an opening for two Senior Explorationists with a strong interpretation background from the Gulf of Mexico to join our Houston office.

Candidates should have at least 8 years industry experience and a minimum of an M.S. degree in geophysics/geology. We are seeking prospect generators with a high level of interpretation workstation competency, dominantly Gulf of Mexico deepwater experience, the ability to integrate geophysical and geological data, and the desire to work in a dynamic team-based environment.

Responsibilities will include:

- seismic interpretation and prospect generation,
- evaluation and risking, regional evaluations and play definition,
- well planning and the follow-up of drilling operations.

For consideration please send your resume to:

Bob Noble, Exploration Manager
Norsk Hydro E&P Americas
