

Houston's Gulf of Mexico Offshore Social

Come join us on **Thursday, April 30th, from 5:30 to 8:00 PM**, for cocktails and hors d' oeuvres at **Sullivan's Steakhouse, 4608 Westheimer** in Houston, just inside the West Loop from the Galleria. Same location as the old On the Border!

This informal networking event is organized by GOM Landmen, but please spread the word to all GOM upstream professionals and managers. We plan further socials several times a year at classy places in that area. These events will not conflict with the OCS Lease Sale parties or the HAPL Offshore Social or other land association events.

We thank Noble Energy and Probe Resources for serving as Principal Sponsors for this event. **If your company can co-sponsor this event, please reply to Roger Souders at rsouders@probe-resources.com and bring your credit card to the event.** We are trying to make sponsorship simple by asking each participating company to take a round of drinks as dispensed at a cost of \$100-\$200, your call. Please also let us know if your company's contact on our email list should be another person (larger companies may require more than one contact).

Thanks in advance for your support and best regards from our GOM Social Committee which includes Roger Souders at Probe Resources, Mickey Ables at Cobalt Ventures, Lynne Hackedorn at Cobalt International Energy and Paul Nielsen at Challenger Minerals.
