MMS Pipeline Right-of-Way Ownership Policy Update

With regard to Pipeline Right-of-Way grants that are currently held 100% by one party, any assignments on said Pipeline Right-of-Way grant will have to result in one new party holding 100% of the grant, or the assignment will not be approved. Pipeline Right-of-Way grants that are currently held by more than one party are considered “grandfathered” in and the MMS will continue to recognize the multiple holders and will allow the holders to transfer their proportionate interest to another party.
